

PETER PARSONS
WEB DEVELOPER

ABOUT

I'm a web developer with over four years of professional experience in the industry. I am an ambitious problem solver with a passion for online businesses and would like to join a team of like-minded developers.

I'm curious, and I enjoy work that challenges me to learn something new and stretch in a different direction. I am hungry for learning and do my best to stay on top of changes so that I can meet challenges with tools well suited to the job at hand.
